

## Dual Channel Wireless Microphone

## Features:

- ▶ With UHF PLL circuit, achieving long-distance receiving and enhancing signal stability
- ▶ With IR auto pairing key
- ▶ With strong anti-interference ability, faster connection speed, and more stable signal
- ▶ Sturdy and durable
- ▶ Easy to operate and set up
- ▶ 1U metal cabinet with built-in dual-channel receiving module
- ▶ A preset group of 150 frequencies do not interfere with each other
- ▶ Ideal for karaoke, home KTV, big party, DJ, church, wedding, speech, class use.

MPRO-22H

MPRO-22B

Model	MPRO-22H/MPRO-22B
Bandwidth	50MHz
Frequency interval	250KH
Carrier frequency	UHF520-950MHz
Channel number	2 channels
Chassis material	Metal chassis
Rack unit	EIA standard 1U
RF stability	$\pm 0.005\%$ (-10~50°C)
Oscillating mode	PLL phase-locked frequency synthesis
Switchable frequency number	200 selectable
Receiving mode	Dual Tuner auto-select
Bandwidth	25MHz
FM mode	Infrared pairing
Output power	30rnW
Max Offset	$\pm 70$ KHz
Microphone capsule	Dynamic
Power supply mode	2 AA batteries
Battery life	About 8 hours
